Re: Summerlin + 362 Acre Tract

POADP # 427 - D

Dear Mr. Matkin:

The City Staff Development Review Committee has reviewed Summerlin +362 Acre Tract Subdivision Preliminary Overall Area Development Plan # 427 - D. Please find enclosed a signed copy for your files. Although your plan was accepted, please note the following:

- Based on the topography, a Flood Plain Study and drainage review will probably be required during the platting process.
- In consideration of public safety and convenience, excessive grades by reason of topography should be avoided in street layouts and arrangements.
- This development will probably need to conform to requirements associated with development over the Edwards Aquifer. For additional information about these requirements you can contact SAWS at 704-7305.
- Access and R.O.W. issues along State facilities will need to be resolved with the Texas Department of Transportation (TXDOT). For information about these requirements you can contact TXDOT at 615-5814.
- If Wilderness Oaks is developed as a pilot project, it will probably require a 110' of ROW.
- This development will need to comply with tree preservation ordinance #85262. For information about these requirements you can contact Building Inspections at 207-7102.
- It will be expected that you will plat all of the property depicted in your POADP, to include: floodpains, drainage areas and open space.

- I would encourage you to work closely with the school district, so that they can plan accordingly.

Please note that this action by the committee does not establish any commitment for the provision of utilities, services or zoning of any type now or in the future by the City of San Antonio. If the proposed development is not platted in phases this POADP will be invalid. Platting will have to comply with the UDC.

If you have any questions or comments regarding this matter, please contact Ms. Elizabeth Carol, at (210) 207-7900.

Sincerely,

Emil R. Monciyais AIA, AICP  
Director of Planning

Re: Revisions to the Approved Preliminary Overall Area Development Plan (POADP)  
for Summerlin, POADP #427-C

Dear Ms. Carol:

This is to inform you that we have recently revised the approved POADP for Summerlin (POADP #427-C). These changes are non-substantial and the overall acreage of the development remains at  $\pm 363$  acres.

The steep grade of the existing topography required these changes. The revision includes changes in road alignment and an increase in construction stages. The overall development will be completed in five phases instead of four phases as approved by the Planning Commission. However, land use and overall acreage for development will remain the same. At this time, we have also revised the name from Canyon Springs Estates to Summerlin. Attached please find six (6) copies of the revised POADP for Summerlin.

Should you need any further information, please call our office. Thank you for your consideration.

Sincerely,  
Pape-Dawson Engineers, Inc.

John-Mark Matkin, E.I.T.  
Assistant Project Manager
